## PREMIUM KETTLE-COOKED *Apple Butter*

A lot of changes have happened over the more than 50 years that Cooper's Mill has been in business, but what hasn't changed is our dedication to giving our customers the highest quality products possible. Our dedication is especially evident in our signature apple butter products, which are still made in a copper kettle over a wood fire with all-natural, fresh-picked ingredients to give it a rich, flavorful taste that is impossible to resist. We are proud that our apple butter contains no artificial colors, preservatives or high fructose corn syrup—the way it has been for over 50 years.
